

# Calendar 12 pages

This is a visual help in how a 12 page calendar project may look. Space on this calendar type is rather limited, so thoughtful planning of your calendar concept will be helpful.

For example, 12 pages is not as suitable as a photo calendar as 28 pages would be with the space they provide. However, these calendars come in handy if your focus is to provide a 3 months' outlook in one glance.

Our scetch is for reference only, of course you are free in your design choices and how you set up your concept of these calendar pages.

## Data Submission

Please submit a multipage .PDF-file with all 12 pages in chronological order, please do not send as spreads. Pages require 0.1875" bleed on all sides. Correct page orientation is extremely important to avoid nasty surprises.
